Win Small Bone

A small bone was tossed Arlmont residents to relieve overcrowded buses to Harvard square.

Beginning in March buses will run every 20 minutes instead of every 30 from 7:10 to 8:10 a.m.

Acting on a petition from local residents and also a plea from the Selectmen, the MTA made some traffic counts at Harvard Square and at Massachusetts Ave.

They declared that the service during the home-coming rush hours was normal for the number of passengers, but that the morning service was heavily loaded.

The new schedule will go into effect in March, and no other changes are planned.

Tonight

Tonight, Thursday, the Mothers March for the New March of Dimes will take place---townwide.

This project, it is pointed out, raises over two-thirds of the total for the National Foundation which has taken on support of research in arthritic conditions and congenital abnormalities in children, besides the dreaded polio.

Roger W. Babson

Reports on

Nervousness

Babson Park, Mass., Jan. 28. Wall Street friends of mine who were bullish a few months ago, then later advised caution, now write me that they are "confused."

RUSSIA'S TEMPORARY SUCCESS

People who have visited Berlin, East Germany, Warsaw, and Moscow come back with this feeling:-- Although Communism and Mr. K will probably go out of existence, yet the campaign to gradually eliminate private property is something you should not overlook.

All over Europe tendencies in this direction are observed. What is now going on in Cuba is a reflection of what we see in Italy, France, and even West Germany. This tendency is beginning to confuse Wall Street, even the most bullish. They still feel, however, that if the evils of labor unions and inflation could be checked, then 1960 might see even higher stock market prices than have yet been reached.

LAND VS. STOCKS AND BONDS

It is true that in the history of most land seizures and confiscations of tangible property the land has usually been returned to the original owners. But where private property has been confiscated and then covered by large state-owned or municipal-owned apartment houses, as in Warsaw and Moscow, return of the land seems almost impossible. In short, there is a good chance that the sugar lands of Cuba which have been taken from American corporations will be returned to them so long as they remain farm land and are not built upon.

Wall Street, however, does not know whether it would be possible to return to their rightful owners the stocks and bonds which may someday be confiscated. No one knows, as not enough confiscations of stocks and bonds have occurred to provide the answer. A "hedge against inflation" may not be too hard to obtain; but a "hedge against confiscation" is a much more difficult matter.

1960 STOCK MARKET VERY IMPORTANT

I now see no possibility of such confiscation here; but the very thought of it may be a reason for softening stock prices. The sellers of stocks certainly appear more anxious to sell than the buyers are to buy. This is what the Street calls a technical reaction. The Dow-Jones Industrial Average was about 600 a year ago. It reached a high of 678 in August and another high of 685 on January 5, 1960. Then it began to slide off and is now fluttering around 650. No one knows whether we are yet in a real bear market; but investors should surely sell enough stocks now to get out of debt.

The American people are much like a flock of sheep. When a few leaders jump over a wall, the majority feel obliged to follow. This especially applied to Congressmen, who should be our real stabilizers; too many of them, however, think they must "follow the leaders" in order to be re-elected. For this reason, I sincerely hope that both the stock market and general business will continue good until after the November elections. Otherwise both Republicans and Democrats may make promises which could lead to seizure of the voting power of certain securities. This must be avoided at all hazards.

WHY WAS THE STEEL STRIKE FINALLY SETTLED?

Frankly, it was because of labor's threat to have the Federal Government seize the voting power of the steel stocks. Although confiscation of certain stocks and bonds may come someday, what Wall Street now fears is that union labor may try to force a transfer of the voting power of the big steel, motor, and certain other stocks over to the Federal Government and gain for labor direct representation on the boards of directors. The next step would be the confiscation of the voting powers of the big mutual funds and life insurance companies.

Finally, I ask what will happen to Florida, California, and other states to which retired people are now flocking if our corporations are so handicapped by labor unions and inflated costs that they can make no money with which to pay into pensions? Those who are already retired, of course, have nothing to fear; the corporations have deposited enough money in trust companies to fully protect employees who are already retired. Both insurance policies and insurance stocks should be safe investments. These will be protected by Congress, whoever holds the voting powers of the stocks.

Dear Sir:

I wish to express the appreciation of the Boston Post Office and the employees of the Boston Postal District for the fine news stories, editorials and photographs which brought to the attention of your readers the current information on Christmas mail.

This fine public service represented a major contribution to our success in handling more than 200,000,000 pieces of Christmas mail in the Boston Postal District on time. We are grateful to the public for their response in the matter of early mail.

Please extend to your staff our sincere thanks and best wishes for the New Year.

Dear Editor:

For your generous cooperation during the past year in printing news articles about the work of Morgan Memorial Goodwill Industries, we express through this brief letter our deep gratitude to the Arlington News.

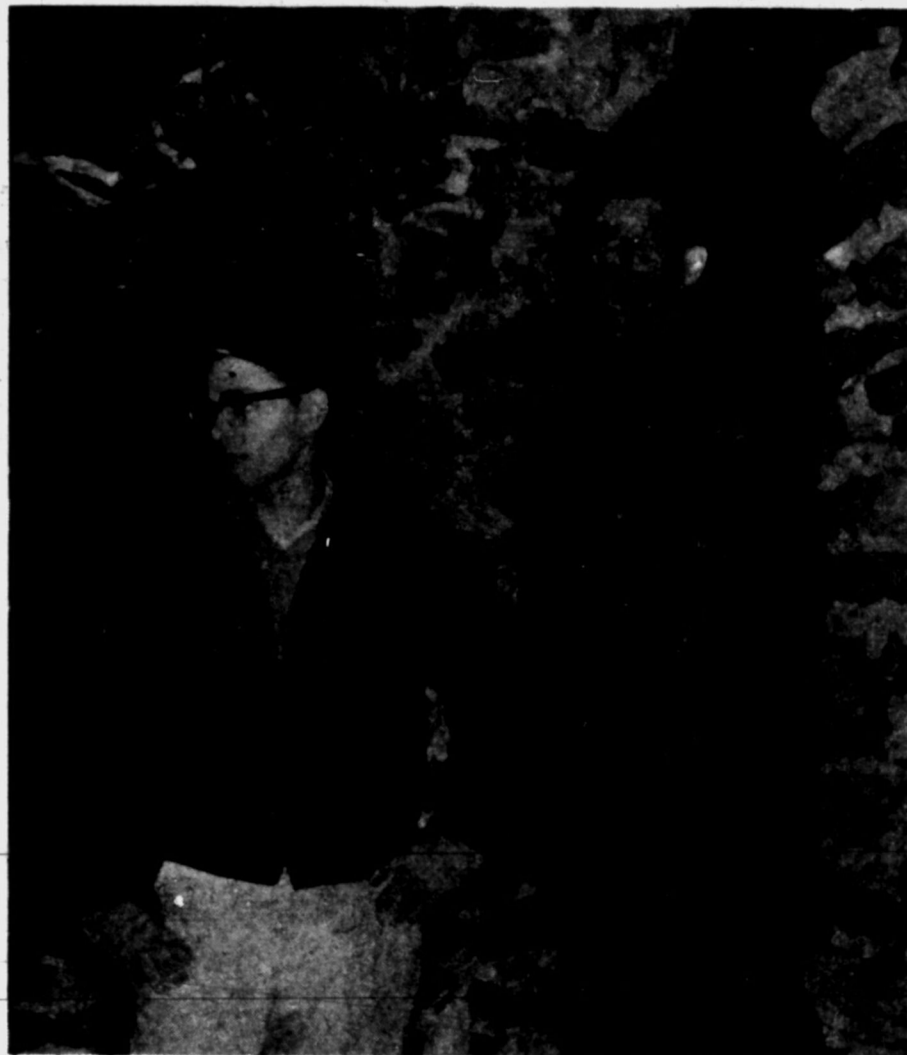

It is also a letter to all your readers who have donated repairable clothing, household articles and funds to help keep 350 handicapped people at work - folks who would rather work and earn their own way by repairing and reconditioning contributed articles than accept public charity.

As you know we are the largest private agency in New England serving the handicapped, regardless of race, creed, or color. Hundreds find an open door at Morgan Memorial after all other avenues of help have been closed. All we ask is that the usable and repairable discards continue to come to us so that the things of no further use to our friends may be used to keep the handicapped employed and then sold in our Thrift Shops to economy minded people. The income from this source pays eighty percent of our operating costs.

Thank you again and may God's blessing be upon you all.

Sincerely,
Henry E. Helms
Executive Secretary

Greeley And Rawson Look Like Repeat Performers To Me

Named For \$200,000 Fund

Three prominent people have been named as campaign leaders for the \$200,000 Arlington Boys' Club Building Fund.

Arthur D. Saul Jr., campaign chairman, this week announced the acceptance of William B. Houser to serve as chairman of the Commerce and Industry Subscription Committee, also Wallace J. Flynn and Mrs. Kenneth C. Spengler who will act as co-chairmen of the Residential Division.

Mr. Flynn and Mrs. Spengler will lead a group of 300 to 400 citizens in the Residential Division in solicitation, the final phase of the campaign which will occur in March. This group will be concerned with inviting some 5,000 of their fellow neighbors and residents to make pledges to the building fund which will be payable over a 36 month interval extending into four tax years.

Mr. Houser's Commerce and industry Committee will actively solicit a select group of the larger business establishments, banks and utilities in the area served by the Boys' Club to ask them to share in the program which is designed to provide complete new clubhouse facilities on the site where the present Boys' Club building now stands.

Mr. Houser, an incorporator of the Arlington Boys' Club, is a charter member of the Boys' Club Associates and a member of the Touchdown Club. A director of the Arlington National Bank, he also is a past president of the Arlington Kiwanis Club and a past exalted ruler of the Arlington Lodge B.P.O.E. He also is sponsor of the Houser A. C. in the Arlington Little League.

Mrs. Spengler is a former member of the Boys' Club Board of Directors, a trustee of Robbins Library of Arlington and is immediate past president of the League of Women Voters. She also formerly served as president of the Parmenter School P. T. A. and has been active in the residential drive of the annual United Fund Appeal.

Mr. Flynn is a graduate of Harvard College and is a member of the board of governors of the Harvard Club of Boston. A member of the Arlington Touchdown Club and former secretary of the planning board of Arlington, he also has been active in the Greater Boston Chamber of Commerce and has served as a member of the speakers bureau of the United Community Services.

Historic Letter — — —

Boston University senior Paul C. Richards of Hanson, Mass., shows coed Muriel Wennberg of Arlington, Mass., an autographed picture and letter of Alexander Hamilton, dated 1790, part of Richards' collection of more than 500 historic letters, autographs and manuscripts. They are examining portions of his collection on display in the University's Cheney Library during the month of January.

Pay Hike —

Continued from page 1

voted its employees an increase of \$104.00 last year or about 2.2% on the average; the nine other cities and towns historically used for comparison purposes voted an average of 5% - which in Arlington would have amounted to about \$220.00. Thus about 3% of the 5% recommended is to bring Arlington back into a relative position.

2. The annual average cost of living rose almost 1% from December 1958 (125.7) to December 1959 (126.9). Historically Arlington has recognized increased cost of living as a basis for increasing comparably the pay of town employees.

3. The majority of the nine cities and towns indicate through their Personnel Boards or comparable groups that there will be some adjustment upward in 1960 of their pay scales. No concrete data is available at this time, but the average increase during the past five years for this group has been 4.2% per year. Undoubtedly this increase will exceed 1% in 1960. The 5% increase recommended, then, consists of three separate parts; 3% to regain relative standing, 1% cost of living, and 1% to match, at least in part, anticipated increases by others.

4. While Town jobs cannot be compared directly to comparable positions in industry because of additional security and fringe benefits granted Town employees, nevertheless annual increases to industrial employees must be considered. All indicators point to increased industrial pay in 1960 - many of them automatic from cost of living escalator clauses in union agreements or long-term (3 or more years) agreements, such as the Steel Industry pact calling for 4 1/3 % an hour over three years.

NEWS VIEWS

Lexington Aroused

The Town of Lexington is aroused against Arlington's proposal to bring Rt. 3 across the "Great Meadow" (large area in Lexington but owned by Arlington). In fact our neighbors are pretty sore.

Evidently a better job of inter-community relations could have been done. Arlington's move seems to have come as a complete surprise. This is too bad. Arlington's only hope is to bargain a bit with its neighbors (Lexington and Winchester).

If there is no hint of some agreement, the State can shove

New Name

The name of the Arlington Civic Association has been changed to the Arlington Democratic Club. This action was taken at meeting held in the Old Town Hall on January 21.

Present officers are: Frank J. Higgins, chairman; John Sullivan, vice chairman; Jerry Bartholomew, treasurer.
